

Press Release

Motor outputs up to 20 MW

At Hannover Messe 2018, Menzel Elektromotoren will present a huge motor portfolio in every sense of the word. The Berlin-based company has one of the most well-stocked warehouses in Europe for squirrel-cage and slipring low-voltage, medium-voltage, and high-voltage motors up to 15,000 kW, as well as DC motors up to 600 kW. In addition, Menzel custom-tailors drive solutions and builds special designs up to 20,000 kW. Menzel supplies customers around the world with motors and frequency inverters for fans, pumps, compressors, extruders, hoists, conveyors, and other heavy-duty applications. Drive engineers are readily available to ensure qualified technical support. Menzel is particularly skilled in flexibly implementing customer wishes. Not only can brand-new industrial motors be delivered straightaway, the drive manufacturer also has many years of experience in modifying standard motors according to customer specifications in the shortest possible time. A special flange is required? The terminal box must be moved to the opposite side? A particular cooling type needs to be implemented? Menzel does it all and often delivers the custom-tailored drive within days.

Visitors seeking to schedule a meeting at the trade fair are welcome to send an advance notice of their preferred dates and times to Ms. Viktoria Meshova (vm@menzel-motors.com). Menzel also provides complimentary professional visitor tickets on request.

About Menzel Elektromotoren

Based in Berlin, Menzel Elektromotoren GmbH has been manufacturing and distributing electric motors for more than 90 years. The medium-sized company specializes in the delivery of large electric motors, including special models, within the shortest possible time. The product range comprises high and low voltage motors, DC motors, transformers, and frequency inverters. Services include motor production and short-term adaptation of stocked motors to application-specific requirements. In order to ensure fast deliveries to the customer at all times, the company maintains a very extensive inventory including more than 20,000 motors with a maximum performance of up to 15,000 kW. Qualified engineering, experienced staff, and state-of-the-art production and testing facilities help Menzel provide excellent reliability. Menzel operates subsidiaries in the UK, France, Italy, Spain, and Sweden, and cooperates with numerous partners worldwide.
